

## 管上式自清洗压力补偿滴头 Compact Online PC Dripper with Self-cleaning

### 特点 Features:

- 内置新一代迷宫式宽流道，全程自清洗，进水口带过滤格栅，抗堵塞性能好。
- 采用进口优质硅胶生产膜片，压力补偿效果好；同时稳定性强，使用寿命长。
- 使用 100% 优质塑料原料和添加剂生产，耐腐蚀，耐老化，抗紫外线强。
- 采用先进生产工艺，制造偏差 CV 小，确保每个滴头出水均匀。
- 结构紧凑，体积小，对田间机械作业影响小。
- 有 2 种出水口接头，带倒刺接头可直接接毛管用于 1 出 1 滴箭，节省配件，
- 安装方便；带承插接头可配合 1 出 4 或 1 出 2 滴箭套件。
- Wide and deep water passgers of labyrinth inside dripper and Continuous self- flushing improve clogging resistance.
- Diaphragm inside dripper made by excellent silicon gel is good for effect of pressure compensation and stability with long service life.
- Produced by Good Quality of Raw plastic material and additive insure anti-corrosion, anti-UV and anti-aging well.
- Adopting advanced production technology with very low CV, which ensure that the flowing of each dripper is nearly same.
- Uniform discharges as high efficiency of PC , which is good at irrigation for the area of undulating terrain.
- Compact structure with small volume, which is convenient for the operation of field machinery .

**技术参数 Technical Data:**

压力 VS 流量曲线 Pressure VS Flow Curve	工作压力 Working Pressure (Bar)	L/hour
	0.5	1.9
	0.7	2.0
	1.0	2.1
	2.0	2.1
	3.0	2.2
	4.0	2.1
