The stork has long been viewed as a powerful symbol of birth and new life. As with new life, these giant birds also symbolize new beginnings that are about to take place in your life, whether physically or spiritually.

In Armenian culture stork has a unique place, they sing a lot of songs in behalf of it. Every year they will wait for the stork to return so that year will be good.

We choose stork as a symbol of Armenia and a green color for peace nature and unity.
