

A technical drawing of a circular object, possibly a ring or a flange. The drawing consists of two concentric circles. The outer circle is drawn with a solid line, and the inner circle is drawn with a dashed line. The text $\Phi 800-900$ is centered between the two circles. A horizontal line segment is drawn below the text. On the right side of the drawing, the number 20 is written, with a dashed line indicating a dimension from the outer edge of the ring to the center.

$\Phi 800-900$
